**Live and In Person.**

Siser® has attended many trade shows over the years where we demonstrate the newest and most time-honored cuttable & print and cut materials. If you are interested in learning how to use the latest decoration methods or adding Siser materials to your lineup, come visit us at an upcoming trade show or open house. We're always willing to listen, teach, and demonstrate the most widely used heat applied materials in the world!

For a list of upcoming shows, visit SiserNA.com/show-schedule. Hope to see you soon!

---

**Online.**

If trade shows aren't your thing, don't fret! You can still interact with the experts at Siser and get answers to your questions!

We're always on social media - hit us up on YouTube & Pinterest... we try to be everywhere you need us to be. If you run into any issues along the way, you can always email or call our support staff. You can find the info at SiserNA.com/contact-us.

Need to know if the supplier you're buying from actually sells Siser materials? Don't have a supplier yet? Contact us at info@SiserNA.com, and we'll get you the answers you need!

We look forward to meeting you either in person at a trade show or virtually - online!
HEAT PRINTING ACCESSORIES

Siser® has all the tools that make heat printing a snap! Whether it's weeding, masking, or heat applying, we've got what you need to succeed!

**Siser® EZ Weeder®**
The fastest way to weed heat transfer vinyl!
The Siser weeder allows you to weed with speed and accuracy—even in small cavities. This durable stainless steel tool will not bend or break when weeding designs and be sharpened if necessary. Recommended for use with all Siser cuttable heat transfer vinyl and printable heat transfer vinyl materials.

**Heat Transfer Pillows**
Heat Transfer Pillows give your designs a smooth, even surface.
Heat Transfer Pillows have a core of soft foam covered by our non-stick Heat Transfer Cover Sheet material. The thickness of the foam allows buttons, zippers and seams to sink into the pillow, giving you an even surface for heat application. Available in 5” x 8”, 6” x 8”, 10” x 10”, 12” x 14”, and 16” x 20”

**Multipurpose Paper**
The one paper that does double duty!
The name says it all! Multipurpose paper can serve as a cover sheet, protecting your garment and upper platen on your heat press. When using as a cover sheet, make sure the glossy side of the paper is facing down. The glossy side of the paper can also be used to store weeded transfers until you are ready for heat application. Multipurpose Paper can be used several times.

**Heat Transfer Cover Sheet**
Protect your garments and your heat press upper platen!
If you only purchase one cover sheet, this is the one you want! This is the most popular reusable non-stick cover sheet in the industry. These cover sheets protect your garment and the press’ upper platen. Heat Transfer Cover Sheets are reusable and give your image a semi-glass finish. Replace if the sheet becomes creased or wrinkled.

**Squeegee**
Perfect for applying EasyPSV® as well as masking films
Easily apply your EasyPSV pressure sensitive vinyl or smooth out your masking films and remove unwanted air bubbles with this handy plastic squeegee. Recommended for use on all Siser Print and Cut Materials as well as EasyPSV! The squeegee removes trapped air bubbles and creates a bond between the mask and the image.

**EasyWeed® HTV**
305°F/150°C | Medium Pressure | 10-15 sec | Peel Hot or Cold

Please note that due to the way the fluorescent colors are manufactured, there may be variations in colors from batch to batch.

The latest Innovation in Sublimation!
Siser® EasySubli® heat transfer vinyl is the key to sublimating garments of any color and almost any fabric! For best results, print directly on EasySubli with Siser EasySubli Inks by Sawgrass and the Virtuoso SC400 or SC800 printers. After printing, cut your design by hand or with an electronic cutting machine. For designs with multiple pieces, use EasySubli Mask and a squeegee to transfer designs from the static backing to your garment. With a low application temperature of 311°F, you can even heat press sensitive fabrics like tri-blends and rayon! Try you hand at the printing game without investing an arm and a leg - Try EasySubli/heat transfer vinyl!

Compatible with Siser® EasySubli® Inks by Sawgrass and standard sublimation inks
**Siser® Digital Media**

**ColorPrint Easy**
305°F/150°C | Medium Pressure | 15 sec | Peel Hot or Cold

The Easiest Digital Media to Mask and Weed!

ColorPrint Easy is the easiest weeding print and cut material ever! ColorPrint Easy is just what the name says - EASY! Simply print and cut your design, weed the excess with ease, and mask. With the help of a Siser® squeegee, ColorPrint Easy transfers smoothly to the mask with little effort. Peeling the carrier is a snap too! ColorPrint Easy applies at only 305°F, which gives you the ability to apply to special materials that require a lower application temperature.

Compatible with eco-solvent and solvent-based printers/cutters (Not for desktop printers)

**ColorPrint Extra PU**
305°F/150°C | Medium Pressure | 15 sec | Peel Hot/Warm

The Digital Media Designed with Nylon in Mind!

ColorPrint Extra PU, our update to the original ColorPrint Extra, is perfect for full-color printing on nylon and is durable enough for pennants, canvas, tents and other difficult to personalize items. If you’re looking for a digital media that works on shoes, belts, canvas bags and more, ColorPrint Extra PU is the material you’re looking for! ColorPrint Extra PU is the durable alternative to costly screen printing on oversized or odd substrates.

Compatible with eco-solvent, solvent-based and latex-based printers/cutters (Not for desktop printers)

**TTD Easy Mask**

TTD Easy Mask is a clear mask formulated for use with all Siser® digital media. Being clear, the mask allows you to easily place the design on the garment during application.

**TTD High Tack Mask**

TTD High Tack Mask is specifically designed for ColorPrint Soft Opaque, Siser’s newest digital media. The stronger tack allows for easy removal of the design from the carrier.

**Siser® Digital Media**

**ColorPrint PU**
- 235° F/116°C | Medium Pressure | 15-20 sec | Peel Hot

**Full-Color Digital Media Designs with incredible Stretch & Rebound**

Impress your customers with beautiful, vibrant graphics that are also lightweight and durable. Siser®'s ColorPrint PU is a thin, stretchable digital media available in a glossy or matte finish. ColorPrint PU allows you to create great full color graphics that are CPSIA certified! ColorPrint PU is thin enough to provide a great hand and stretchable enough for most performance wear. Plus it's easy to use! Just print, cut, mask, and press!

*Compatible with eco-solvent, solvent, and latex based printers/cutters (Not for desktop printers)*

**ColorPrint Soft Opaque**
- 315° F/156°C | Medium Firm Pressure | 15 sec | Peel Hot

**The Thinnest, Softest Print and Cut Material - For Dark Garments!**

If the soft hand and vivid colors of ColorPrint Translucent sound good to you but you want it for dark garments, you want ColorPrint Soft Opaque! The same great qualities of ColorPrint Translucent with the addition of a white base that allows for application on dark colored garments. If you're searching for an ultra thin material with a soft hand, that doesn't compromise on color quality no matter what shade you print on then your search is over!

*Compatible with eco-solvent and solvent based printers/cutters (Not for desktop printers)*

**ColorPrint SubliThin®**
- 265° F/130°C | Medium Pressure | 15 sec | Peel Warm

**The Perfect Digital Media for Sublimated Sports Garments!**

Standard print and cut material isn't formulated for use on sublimated jerseys. If you apply a regular printable polyurethane vinyl onto a sublimated garment, you'll get what's called “dye migration”. Dye migration is when the sublimation inks bleed through the vinyl, causing your designs to look muddy or splotchy. ColorPrint SubliThin® is specially formulated to block dye migration. Great for all polyester motocross, soccer, and hockey jerseys with full sublimation.

*Compatible with eco-solvent and solvent based printers/cutters (Not for desktop printers)*

**Hi-S Print Matte**
- 250° F/120°C | Medium Pressure | 5 sec | Peel Hot

**Low Temperature, Low Time, High Quality Results!**

The low application temperature of 250°F paired with only 5 seconds of pressing time means you can say goodbye to heat marks and hello to soft, matte graphics - in a matter of seconds! With the help of Hi-S Print Matte you can now confidently decorate fabrics like 100% polyester, rayon, polypropylene, and anything else that can't stand the heat recommended for other digital media. Designed for use in wide format print and cut machines.

*Compatible with eco-solvent, solvent, and latex based printers/cutters (not for desktop printers)*

**StripFlock® PRO HTV**
- 311° F/155°C | Medium Pressure | 15 sec | Peel Hot

**Holographic HTV**
- 320° F/160°C | Medium Pressure | 15-20 sec | Peel Cold

*Translucent colors’ final appearance will be influenced by substrate color.*
**SPARKLE HTV**
305°F/150°C | Medium Pressure | 15 sec | Peel Warm

Snowstorm White  | Silver Sword  | Midnight Black  | Tomato Red  | Sunset Orange  | Buttercup Yellow

Gold Star  | Green Leaf  | Cornflower Blue  | Blue Jeans  | Grapevine  | Perfect Pink

Pink Lemonade  | Clear Sparkle

**METAL HTV**
305°F/150°C | Medium Pressure | 10-15 sec | Peel Cold

Silver  | Red  | Bronze  | Gold  | Silver Blue  | Blue

Purple  | Tiger Lily  | Golden Rose

**EasyPSV® PERMANENT - GLITTER**

Diamond  | Cast Iron  | Night Sky  | Flame Red  | Brick Red  | Glittering Gold

Emerald Envy  | Sparkling Aqua  | Lapis Blue  | Azure  | Marine Blue  | Midnight Violet

Hyacinth  | Pink Flirt  | Coral  | Rose Gold

**EasyPSV® APPLICATION TAPE**

Apply your Siser® EasyPSV® successfully every time using Siser Application Tape. This all-purpose tape is used to apply your PSV graphics onto your object’s surface with ease. The medium tack and clear surface make Siser Application Tape great for graphics of all sizes. From mini monograms to major wall graphics, Application Tape is here to help. Fitted with a 1” square grid pattern to keep your decal straight, Application Tape makes measuring a breeze and centering your graphics super easy!
Put down the razor blade! This EasyPSV® is cleanly removed from decorated surfaces without any special tools or adhesive residue left behind. Now you always have the option of changing up your look! Spruce up painted drywall for the nursery without worrying about when your little one grows up and turns their nose up at the “baby” decorations. Removable EasyPSV comes off the wall without damaging it, so you’re ready to redecorate their big kid room! Since the removable adhesive won’t harm paint or leave a sticky residue behind, EasyPSV is perfect for mirrors, windows, plastics, and more. Plus, the soft, matte finish of removable EasyPSV won’t produce a glare so it looks lovely indoors. Once you start to think about it, there’s a way to use EasyPSV in every room of the house!

EasyPatterns™ are EASY to use pre-printed PATTERNS for use in the cutter of your choice. EasyPatterns are compatible with TTD High Tack Mask - just like our ColorPrint™ materials! Simply choose your text or design, load the material into your cutter with the pattern side up, and cut in the positive (do not mirror/flip image) Once your design is cut, all that’s left to do is weed the excess material, mask with TTD High Tack, and heat apply with a heat press or a home iron. Customization has never been easier - or better looking!
Welcome to the wonderful world of PSV!
The name brand you know and trust is staying true to Siser® Style by keeping things EASY. Siser EasyPSV® is your new go-to adhesive vinyl for creating decals that can decorate almost any hard surface. Apply your designs to glass, wood, plastic and so much more when you use EasyPSV! This sticky vinyl adheres quickly so your creativity is never hindered! Additionally, EasyPSV's ideal thickness makes it simple to cut, weed, and apply with wide format and craft cutters of all kinds.

Available in both permanent and removable, EasyPSV has everything you need to customize indoor and outdoor objects. Choose from bright glossy colors, matte finishes, and the always popular option - Glitter! As if that’s not enough, there's even an EasyPSV that glows in the dark, one you can write on with chalk, and an EasyPSV that appears to be etched! Check out all your choices and discover how easy the world of EasyPSV can be!
